## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 7 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Monno (USPN 5311304).

Monno teaches a system for depositing solder onto a substrate, the system comprising a horizontal member for holding solder, a rotatable receiving member and a contact member (45,46) with projections (bracket) for selectively contacting the substrate (figure3A, col 5 lines 1-45 and col 6 lines 26-53).

3. Claims 1, 2, 6-8, 11 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Freeman et al. (USPN 6641030 B1).

Freeman teaches a system for depositing solder balls onto a substrate, the system comprising a horizontal member for holding solder, a rotatable receiving member and a contact member (236) comprising an aligner plate with projections

(238,240) for selectively contacting the substrate (figures 1 and 9-11, col 1 line 61 – col 2 line 63, col 5 line 47 – col 6 line 43 and col 9 line 41 – col 10 line 29).

***Response to Arguments***

4. Applicant's arguments with respect to claims 1, 2, 6-8, 11 and 19 have been considered but are moot in view of the new ground(s) of rejection.

***Allowable Subject Matter***

5. Claims 3-5, 9 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Robinson et al. (USPN 4759488, contact plate), Cheng et al. (USPN 6766938 B2, rotatable, pivotable receiving member, T-shape), Foulke et al. (USPN 6056190, rotatable receiving member), and Bartschat et al. (USPN 4980971).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Edmondson whose telephone number is (571) 272-1172. The examiner can normally be reached on Monday through Thursday from 6:30 a.m. to 5 p.m.
